### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Specification*

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

The disclosure is objected to because of the following informalities:  
Paragraph [0001] should be updated to reflect the patent status of application 10/307,126.

Appropriate correction is required.

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3644

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-17 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10, 12, 13, and 16 of U.S. Patent No. 6,618,992 (Weder) in view of claims 20, 23, 34 and 36 of U.S. Patent No. 6,339,900 (Weder).

Regarding instant independent claim-1:

The preformed sleeve of the instant claim is broadly encompassed by the preformed sleeve of the conflicting '992 independent claim-1.

Specifically, the instant sleeve comprising a base portion having a plurality of preformed folds and a constriction element preattached to a portion of the base portion, is encompassed by the conflicting sleeve comprising a base portion having a plurality of folds in the base portion, a skirt portion extending from the upper end of the base portion and an immobile constriction element preattached to a portion of the upper portion of the base portion.

Regarding instant independent claim-12:

The method of covering a pot as cited in the instant claim is encompassed by the method of covering a pot recited in the conflicting independent '900 claim-20.

Specifically, the instant method of disposing a pot into the base portion of the sleeve comprising a variation on the constriction element as cited,

Art Unit: 3644

is encompassed by the method of disposing the pot into the interior space of the sleeve of the conflicting '900 independent claim-20.

Instant dependent claims 2 and 15 are encompassed by conflicting '992 claim-2.

Instant dependent claims 3 and 13 are identical to conflicting '992 claim-3.

Instant dependent claims 4-10 are identical to conflicting '992 claims 4-10 respectively.

Instant dependent claim-11 cites a gusset in the lower end of the base portion, which is encompassed by the base portion sized to substantially cover the surface of the pot as recited in conflicting '992 claim-3.

Instant dependent claim-14 is identical to dependent '992 claim-8.

Instant dependent claims 16 and 17 are encompassed by conflicting '900 claim-23.
